

# Student Engagement Plan

Excellence, Service, Respect, Compassion, Courage

## Prevent - Respond - Restore

At St Matthews we uphold the dignity of all within our community as God's beloved children.

In light of this we follow Catherine McAuley's example to have "compassion as animating principle" as we utilise restorative practices to support improvement in student behaviour, wellbeing and the quality of their relationships

By utilising restorative practice as a community we collectively take up the challenge to "be more" in living our school values of Excellence - Courage - Compassion - Respect and Service.
